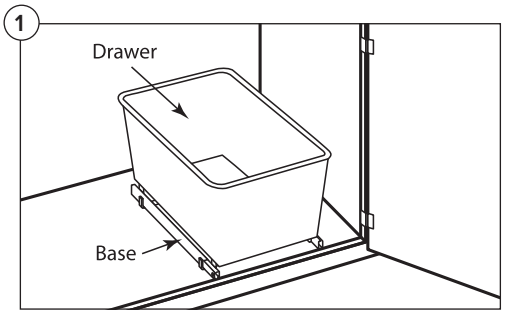
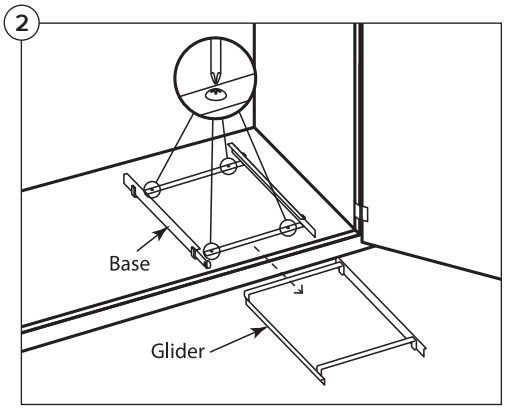
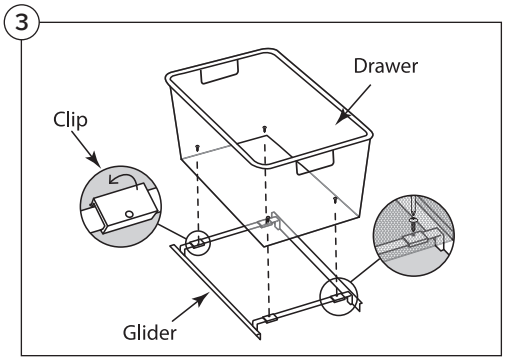
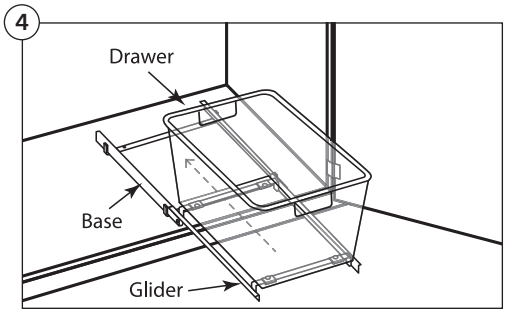
elfa® Pull-Out Cabinet Drawer Assembly Instructions









Tools needed: Drill, Screwdriver

TIPS FOR GETTING STARTED

Make sure that the edge of the drawer is 2" or 50mm from the front edge of the cabinet.

Install the Base

1 Position Drawer and Base in your cabinet in the desired location, allowing clearance for door to close.

2 Remove the Glider from the Base and place on a flat surface.

- Mark the location of the holes in the Base inside the cabinet.
- Drill a pilot hole at each marked location.
- Use a screwdriver to secure the Base inside your cabinet using the included screws.

Add Drawer to Base

3 Install one Clip at each corner of the Glider.

4 Align the Drawer over the clips and use the included screws to attach the Drawer to the Glider.

- Insert the Drawer and Glider into the Base mounted inside your cabinet.
